This document is intended for informational purposes only.

Users are cautioned that Caltrans does not assume any liability or responsibility based on these electronic files or for any defective or incomplete copying, excerpting, scanning, faxing or downloading of the contract documents. As always, for the official paper versions of the bidders and non-bidder packages, write to the California Department of Transportation, Plans and Bid Documents, Room 0200, P.O. Box 942874, Sacramento, CA 94272-0001, telephone (916) 654-4490 or fax (916) 654-7028. Office hours are 7:30 a.m. to 4:15 p.m. When ordering bidder or non-bidder packages it is important that you include a telephone and fax number, P.O. Box and street address so that you can receive addenda.

Note: Addenda information is NOT included with the electronic documents available via electronic file transfer. Only bidder or non-bidder package holders listed with the Caltrans Plans and Bid Documents section as described above will receive addenda information.

Addendum No. 3

Dear Contractor:

This addendum is being issued to the contract for construction on State highway in STANISLAUS COUNTY IN AND NEAR MODESTO FROM 1.2 KM WEST OF CARPENTER ROAD TO 9TH STREET.

Submit bids for this work with the understanding and full consideration of this addendum. The revisions declared in this addendum are an essential part of the contract.

Bids for this work will be opened on September 10, 2002.

This addendum is being issued to revise the Notice to Contractors and Special Provisions.

In the Special Provisions, Section 5-1.15, "ENDANGERED SPECIES REQUIREMENTS," is added as attached.

In the Special Provisions, Section 10-1.01, "ORDER OF WORK," the following paragraphs are added after the last paragraph:

"Equipment and trucks shall be thoroughly washed to remove all dirt and weeds prior to being transported or driven to the project site. Full compensation for washing equipment and trucks shall be considered as included in the contract prices paid for the various items of work involved and no additional compensation will be allowed.

The Contractor shall notify the Engineer, a minimum of 10 days prior to importing material (including aggregate base) to the project location of the source of the material. Prior to removal of material or disturbance to the borrow site or stockpile, the Engineer will inspect the site or stockpile prior to removing hauling material to the project. The top 150-mm shall not be used for the project. Full compensation for doing this work shall be considered as included in the contract prices paid for the various items of work involved and no additional compensation will be allowed therefor."

To Proposal and Contract book holders:

Indicate receipt of this addendum by filling in the number of this addendum in the space provided on the signature page of the proposal.

Submit bids in the Proposal and Contract book you now possess. Holders who have already mailed their book will be contacted to arrange for the return of their book.

Inform subcontractors and suppliers as necessary.

This office is sending this addendum by confirmed facsimile to all book holders to ensure that each receives it.

If you are not a Proposal and Contract book holder, but request a book to bid on this project, you must comply with the requirements of this letter before submitting your bid.

Sincerely,

ORIGINAL SIGNED BY

REBECCA D. HARNAGEL, Chief
Office of Plans, Specifications & Estimates
Office Engineer

Attachment

5-1.15 ENDANGERED SPECIES REQUIREMENTS

There is Swainson's hawk nesting within the project limits beginning March 1. Pre-construction surveys for Swainson's hawks shall be conducted by a Biologist prior to construction due to the potential for nesting within 0.8 km of the project area. Pre-construction surveys will be conducted no less than 10 days prior to the beginning of construction activities if construction is to take place during the active reproductive season. The Biologist will provide the results of the survey to the Engineer. The Engineer will provide the survey results to the Contractor within 3 days.

If nesting occurs, to avoid disturbance to the nesting site during incubation, nesting and the fledgling period (by equipment and construction activity), the Engineer will suspend all of the work until three weeks after the chicks have fledged, which is approximately mid-August. No discouraging of nesting will be allowed. No work shall be permitted in the vicinity of the nest until a Biologist has determined that nesting is complete. If nesting is complete then no work shall occur until a Biologist has determined that the young have fledged the nest. The State will provide a Biologist.

The days on which the suspensions are in effect shall not be considered working days as defined in Section 8-1.06, "Time of Completion," of the Standard Specifications.

Full compensation for conforming to the requirements in these special provisions shall be considered as included in the contract prices paid for the various items of work involved and no additional compensation will be allowed therefor.
